Double Design - #39 & 40 Popcorn Ribbons/Stained Glass

Side 1 (RS): Color A creates the dividers; Color B creates the popcorn ribbons.

Side 2 (WS): Color A creates the frame; Color B creates the glass centers.

This interlocking pattern works evenly over a multiple of 2 + 1 A-colored boxes.

With A, work a foundation ch that is a multiple of 4 sts + 6.

Foundation Row A: With A, work row 1 of filet mesh, set aside.

With B, work a foundation ch that is two chains shorter than the length of the A-colored foundation chain.

Foundation Row B: With B, work row 1 of filet mesh, set aside.

Place the A-colored layer on top of the B-colored layer, with the working yarn of both pieces at the same edge (right edge if you are right-handed, left edge if you are left handed).

Front Popcorn = Work 5 dcif in same dc, remove hook, reinsert hook in the top of the first dc of the group, recatch the empty loop, pull loop through to close popcorn, ch 1 to lock.

Drop Color B to front

Row 1A (RS): With A, ch 4 (counts as first dc, and ch-1 sp), dcib in next dc, *ch 1, dcib in next dc; repeat from * across.

Row 1B (RS): With B, ch 4, Front Popcorn in next dc, *ch 1, dcif in next dc, ch 1, Front Popcorn in next dc; repeat from * across to last dc, ch 1, dcif in last dc.

Turn the entire piece.

Drop Color B to front

Row 2A (WS): With A, ch 4, dcif in next dc, *ch 1, dcif in next dc; repeat from * across.

Row 2B (WS): With B, ch 4, dcif in top of previous row Popcorn, *ch 1, dcif in next dc, ch 1, dcif in top of previous row Popcorn; repeat from * across to last dc, ch 1, dcif in last dc.

Turn the entire piece.

Repeat Rows 1 and 2 until piece is desired length.

Row A (RS) only: With A, ch 4, dcif in next dc, *ch 1, dcif in next dc; repeat from * across.
