Single Design - #7 Wrap Around Double Crochet
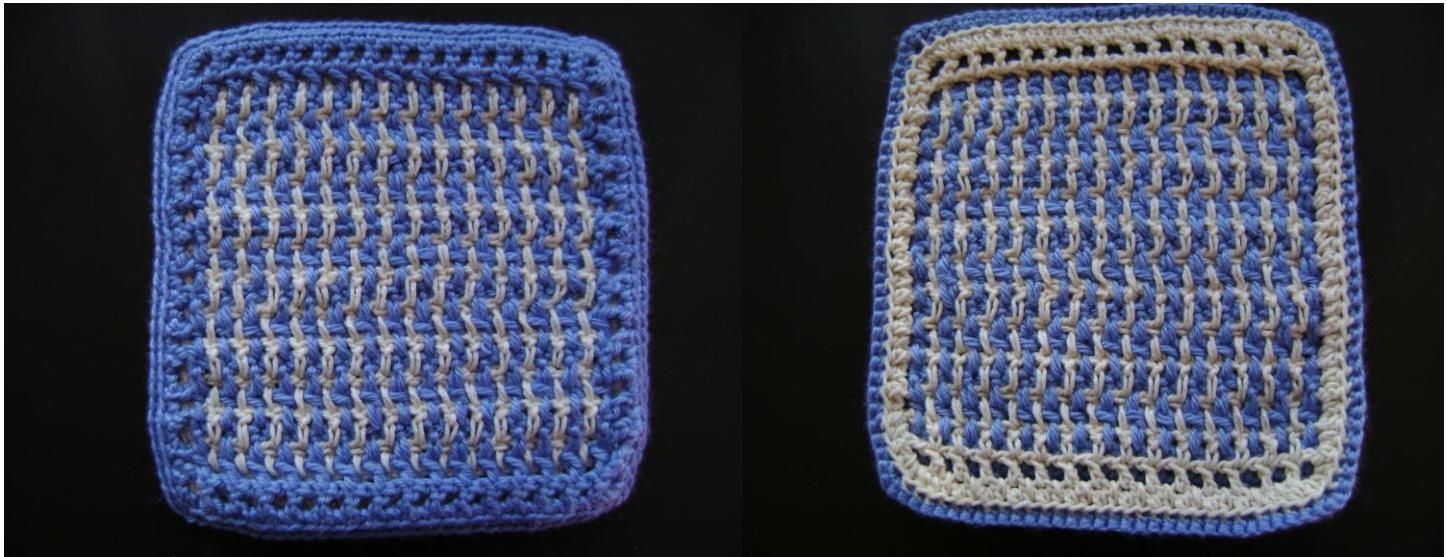

Both sides are rows of wrapped columns.

This interlocking pattern works evenly over a multiple of 2 A-colored boxes.

With A, work a foundation ch that is a multiple of 4 sts + 4.
Foundation Row A: With A, work row 1 of filet mesh, set aside.
With B, work a foundation ch that is two chains shorter than the length of the A-colored foundation chain.
Foundation Row B: With B, work row 1 of filet mesh, set aside.

Place the A-colored layer on top of the B-colored layer, with the working yarn of both pieces at the same edge (right edge if you are right-handed, left edge if you are left handed).

Wrap Around Double Crochet (WADC) = Yo, insert hook through top 2 loops of previous row dc. Yo, pull loop through wrapping around other colored yarn also, [yo and pull through 2 loops on hook] twice.
